## SPOTLIGHT

We decided to do a spotlight on two of our couples this month. We sent out email requests to 4-couples and figured we would spotlight the first one; however Angie & Debbie, and Chris & Tanya came in together. If you were contacted and did not submit your information, go ahead and get it to us, as we will soon be working on the March spotlight:

### Angie & Debbie

Please meet Angie & Debbie, who recently joined Music City Couples just this past December/2007:

Debbie was born July 31, 1963 to a family that was currently residing in Pineville, Louisiana. Debbie grew up in Louisiana and

Many Nashville area employers are following a nationwide trend by offering benefit packages to employees and their same-sex domestic partners, just as they do for married couples. Employers are doing so because it makes good business while helping employees and their families.

According to the magazine *Government Executive*, nationally more than half of the Fortune 500 corporations, along with thousands of other companies, provide benefits for domestic partners and their employees. So do hundreds of state, local governments, colleges and universities.

In Nashville, employers offering same-sex domestic partners include Vanderbilt University and Medical Center, HCA, Deloitte, Kroger, Ford and Aetna.

"Businesses and organizations are offering these benefit packages to help recruit the best candidates and to keep existing employees from leaving for greener pastures," said John Wade, president and chairman of Nashville GLBT chamber of commerce. "The most talented employee for a position may have a domestic partner at home that needs health insurance, dental insurance or some other benefit. Employers need to offer these benefits if they want to be competitive in a changing multicultural marketplace."

The largest private employer in Nashville, Vanderbilt University and Medical Center, has offered benefit packages to same sex couples since January 2000. To date more than 200 couples have participated.

"It is what brought me here as part of a supportive work environment," said Jerry Jones, senior information officer at Vanderbilt University Medical Center, who began working at the facility in 2000.

The Vanderbilt benefit package offered to an employee's partner is quite broad.

"Insurance benefits include health, dental, life, vision, accidental death, dismemberment and survivor," said Jane Bruce, human resources benefit director at Vanderbilt. "Also a domestic partner is treated as a family member for medical and personal leave."

Texas. She has 3-brothers and 1-sister. Debbie attended school at South Grand Prairie High School, in Grand Prairie, Texas. Angie was born May 3, 1968 in High Point, North Carolina. Angie grew up in North Carolina and Tennessee. Angie has 2-brothers, and attended Science Hill High in Johnson City, Tennessee. We are told that Debbie and Angie actually met online and have been together now for 1-1/2 years. Debbie has been an "Oversize Load Escort Driver" for L & D Flag Car for over 4-years. Angie is a stay at home mom and wife. Debbie loves seafood, (who knew, as she is a Louisiana Cajun), and Angie's favorite, "Italian" food. They both love watching television and love The "L" Word. Debbie's favorite movie is "Saving Face, and Angie's is "Gia". We had the opportunity to meet Debbie and Angie at Russ & Don's Valentine Party this month. They immediately became part of the group and joined in with all the others sharing stories and laughing until the night came to an end. We asked them what the funniest thing is that ever happened to them, but neither could think of anything. So, we hit them with the next question, asking what the most embarrassing thing that every happened to them. Their reply, "Not Sure". I guess they live pretty quiet lives out in Johnson City, Tennessee. In either case, we are glad they joined Music City Couples, and look forward to getting to know them better.

**Chris & Tanya**

Also, please meet Chris & Tanya. We have known Chris & Tanya for several years.

At Vanderbilt an employee is required to register as having a domestic partner through a certification process allowing the partner to become eligible.

According to Bruce, the employee and the partner must meet with a designated official of the human resources department, fill out a form stating they are the same sex and not related by blood, and both be over 21 years old and not married to anyone else. In addition, they must state they are in a common household sharing joint responsibility and have been in a committed relationship for at least six months.

Participants are required to provide documentation, such as a checking account or lease agreement, with both names at the same address. Both must sign a document confirming the information is correct.

Jones said that his partner, Travis Smith, who as an independent contractor could not get benefits through an employer and could not afford them on his own. So far Smith has only used the vision insurance after registering three months ago.

"It is good to know the benefits are there when I need them and they make a difference in the quality of our life," Smith said.

However, not everything is equal for domestic partners and married couples because of federal regulations.

"As required by law we have to tax the employer's subsidy on the health care cost for domestic partners," Bruce added.

Vanderbilt pays about 79 percent of the health care cost for both the employee and the partner. Due to the law, the employee must cover the tax on the partner's benefit paid by the institution.

Smaller employers in the Nashville offer similar benefits.

Reverend Cynthia Andrews-Looper, pastor of Holly Trinity Community Church of the United Church of Christ (UCC), said she receives benefits for her partner and eight year old son through UCC.

They began attending our Music City Couples when Bobby and Larry lived in Portland, Tennessee also. We asked Chris & Tanya the same standard questions, and this is what we found out:

Chris was born on February 11, 1965 in Louisiana and grew up in Texas before moving to Tennessee in 1995. Something we never knew is that Chris has a twin. She also has 2-brothers, of which nothing else was said. We wonder now about her twin. Is Lesbianism genetic?

Tanya was born on August 18, 1966 in Chicago, Illinois. She grew up in the suburbs of Chicago called Fox River Grove, and later moved to Ft. Lauderdale, Florida in 1979, and then moved to Tennessee in 1992. Tanya has 2-sisters and is a "Stay at Home" mom thanks to Chris.

Chris and Tanya met at Ralph's Bar on 2<sup>nd</sup>. Avenue in Nashville. Chris was doing some painting in the bathroom at Ralphs, and Tanya was relaxing at the bar. She saw Chris going and coming from the bathroom just a bit too frequently, and assumed she was in there doing drugs. Later, she discovered she was working, and painting the bathroom. They struck up a conversation, "sparks" flew and later that week Tanya had to go fetch her. After their 1<sup>st</sup> date, they pretty much continued talking till they moved in together a couple months later. They have been together now for 10-1/2 years and have

"Our benefits include insurance for health, dental, drugs and life; plus my partner has rights to my pension in event that something happens to me," she said.

The broad healthcare policy provided by Blue Cross Blue Shield is certainly essential in terms of existing medical needs of her family because it includes features such as preventative checkups and testing along with major medical, Looper said.

Without the package available through UCC she would not be able to afford the health insurance, she continued.

Another Nashville employer, the U.S. government, appears to be the next big entity planning to extend domestic partners to its employees.

On December 19, 2007 The Domestic Partnership Benefits and Obligation Act was introduced by both houses of Congress allowing government employees' with same-sex domestic partners to become eligible for federal health benefits, family medical leave, group life insurance, long-term care and retirement benefits.

"If signed into law this legislation would have a positive impact on the well being of many Nashville employees, their partners and families," said Wade. "It is something that is good for the local and business community."

been celebrating their anniversary ever since June 13, 1997.

Chris and Tanya were talking about starting a family, back when they were attending events at Larry and Bobby's home in Portland, Tennessee. They fought hard, through IVF and after several miscarriages and heart ache, they continued with the IVF but they prevailed and are glad they did. They welcomed a son, Peyton, on January 12, 2006 via IVF. If we have any other couples, with children, Chris and Tanya welcome your friendship and look forward to a play date.

The Music City Couples Network, an organization of hundreds of loving and committed gay and lesbian couples believes that the Federal Marriage Amendment is an unconscionable assault on the rights of millions of American citizens, and is joining other organizations seeking its defeat.

According to the Human Rights Campaign (HRC), the amendment "would not only deny marriage to same-sex couples but could also deny any state legislature or electorate from ever voting to pass their own state's domestic partnership, civil union or marriage laws. Under the Federal Marriage Amendment, courts could be barred from enforcing the legal protections that a legislature provides through civil union or domestic partnership laws."

Civil marriage, other forms of relationship recognition, and basic civil rights protections are essential components that make all families, including families headed by same-sex couples, safer and more secure. Civil marriage and religious marriage are two separate things.

Religious institutions will never be forced to bless relationships with which they disagree, just as today religious institutions can refuse to marry couples of different faiths or individuals who have been divorced
